.....

MDC & NKBA created a competition to promote creative and innovative design in the NY Metro Area, an already highly professional and well established area of the design industry.

A blue ribbon panel of judges gave of their time and expertise to review and agree on the above awards. It was noted that not every opportunity was awarded a winner because the judges were very specific about the criteria for exceptional design. The criteria included use of color, creative design and unusual solutions.

The panel awarded S. Lee Wright Ltd one award for each of her three submitted entries to this competition.
